

MINISTRY OF HEALTH

(HMIS Form 105)
Health Unit Outpatient Monthly Report

Health Unit Name: **Level:** **CODE**.....

HSD:.....

District:.....

Financial Year:

DESCRIPTION AND INSTRUCTIONS

Objective: To report the monthly data for OPD attendances, diagnoses, MCH, HIV/AIDS service, Laboratory, stock status of essential drugs and supplies and finances, among others.

Timing: 7th day of the following month

Copies: This report form is in triplicate. The original (white) copy is sent to the District; the duplicate (pink) copy is sent to the HSD and the triplicate (yellow) copy is retained by the Health Facility.

For Regional Referral Hospitals and National Referral Hospitals, the original (white) copy is sent to the respective district health office/City Authority for KCCA, and the other copies should be retained by the facility.

Responsibility: Health Unit In-Charge

PROCEDURE:

1. All health units must compile and submit the HEALTH UNIT OUT-PATIENT MONTHLY REPORT (HMIS 105).

Page 1 - 9 contains:

Section 1 with three sub-sections (1.1-OPD ATTENDANCES, 1.2-REFERRALS AND 1.3-OUTPATIENT DIAGNOSES). The values are obtained from tables 1a, 1b, 1c, 1d and 1e (Health Unit Outpatient daily diagnoses). If the district wishes to include additional diseases of local interest, they may do so under the variable of other diagnoses. The DHMT will be responsible for ensuring all the health units in the district are aware of the chosen additional diagnoses.

- 2 Page 8 - 14 contains:

Section 2, shows a summary of Maternal and Child Health Services, it includes sub-sections (2.1-Antenatal, 2.2-Maternity, 2.3-Postnatal, 2.4-Family Planning, 2.5-Exposed Infant Diagnosis services, 2.6-Early retention monitoring for EMTCT women, 2.6-Child Health Services and 2.7-EPI/EID/PMTCT Integration. The values are obtained from Table 2a (Health Unit Daily Maternal Health Attendance Summary), Table 3a (Health Unit EPI Daily Attendance Summary) and Table 4a (Health Unit Daily Family Planning Summary).

Note: DPT-HepB+Hib vaccine doses wasted = doses accessed – doses administered to children in a given reporting period (in this case a month) where:

- Doses accessed = (Start of month Balance + Total doses received in a month) - (End of month balance + Doses given to other Units)
- Doses administered = Total Number of children (under and above 1 year) immunized in a reporting period

For BCG, children above one year receive twice as many doses of vaccine as the under one-year olds and therefore total number of doses administered = No of children <1yr immunized + No of children >1yr immunized x 2.

Section 3, shows a summary of Hepatitis B diagnosis and vaccination

Page 16 -17 contains:

Section 4: HIV/AIDS testing services. Information is obtained from HTS register, MCH registers, SMC registers and Health Unit B register.

HMIS 105: HEALTH UNIT OUTPATIENT MONTHLY REPORT

Page 17-18 contains:

Section 5: Safe Male Circumcision. Information is obtained from the Safe Male Circumcision Register.

Page 18 - 20 contains

Includes Section 6: Essential Medicines and Health Supplies Stock Status where values are obtained from the Health Facility Stock Book and Stock Cards.

Sub-Section 7, 8 and 9: shows a summary of outreach activities, Meeting and Support supervision activities both planned and actual number carried out, this is obtained from the health facility work plan and outreach records of the Individual units within the health facility.

Note: The storekeeper should also report verbally to the Health Facility In-charge and District/HSD Authorities whenever the stock levels reach minimum stock level.

Page 20 - 23 contains:

Section 10: Includes a summary of laboratory tests. The information is obtained from Table 17a (Laboratory Tests Daily Summary) and

Section 12: (comments by the health facility in-charge): A copy of the comments should be written in the health unit's LOGBOOK.

OPD ATTENDANCES, REFERRALS AND DIAGNOSES TOTALS FOR THE MONTH

1.1 OUTPATIENT ATTENDANCE

Category	0-28 days		29 days – 4Yrs		5 – 9Yrs		10 – 19Yrs		20Yrs & above	
	M	F	M	F	M	F	M	F	M	F
OA01.New attendance										
OA02. Reattendance										

1.2 OUTPATIENT REFERRALS

Category	0-28 days		29 days – 4Yrs		5 – 9Yrs		10 – 19Yrs		20Yrs & above	
	M	F	M	F	M	F	M	F	M	F
OR01.Refer-rals to unit										
OR02.Refer-rals from unit										

1.3 OUTPATIENT DIAGNOSES FOR THE MONTH

Diagnosis		0-28 days		29 days - 4 yrs		5 – 9 yrs		10 – 19 yrs		20 yrs & above	
		Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
1.3.1 Epidemic-Prone Diseases											
EP01. Malaria	EP01a. Suspected Malaria (fever)										
	EP01b. Malaria Tested (B/s & RDT)										
	EP01c. Malaria confirmed (B/s & RDT)										
	EP01d. Confirmed Malaria cases treated										
	EP01e Total malaria cases treated										
EP02. Acute Flaccid Paralysis											
EP03. Animal Bites (suspected rabies)											
EP04. Cholera											
EP05. Dysentery											
EP06. Guinea Worm											
EP07. Measles											
EP08. Bacterial Meningitis											
EP09. Neonatal tetanus											
EP10. Plague											
EP11. Yellow Fever											
EP12. Other Viral Haemorrhagic Fevers											
EP13. Severe Acute Respiratory Infection (SARI)											
EP14. Adverse Events Following Immunization (AEFI)	Serious										
	Non Serious										
EP15. Typhoid Fever											
EP16. Refampicin resistant TB cases											
EP17. Other Emerging infectious Diseases e.g. Influenza like illness (ILI), SARS											
EP18. Covid-19											
1.3.2 Other Infectious/Communicable Diseases											
CD01. Diarrhoea -Acute											
CD02. Diarrhoea -Persistent											
CD03. Urethral discharges											
CD04. Genital ulcers											

Other Infectious/Communicable Diseases (Continued)		0-28 days		29 days - 4 yrs		5 – 9 yrs		10 – 19 yrs		20 yrs & above	
		Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
CD05. Sexually Transmitted Infection due to Sexual Gender Based Violence											
CD06. Other Sexually Transmitted Infections											
CD07. Urinary Tract Infections (UTI)											
CD08. Intestinal Worms											
CD09. Haematological Meningitis											
CD10. Other types of meningitis											
CD11. Cough or cold - No pneumonia											
CD12. Pneumonia											
CD13. Severe Pneumonia											
CD14. Skin Diseases											
CD15. Tetanus (over 28 days)											
CD16. Sleeping sickness											
CD17. Pelvic Inflammatory Disease (PID)											
CD18. Brucellosis											
CD19. Surgical Site Infections (SSI)											
1.3.3 Neonatal Diseases											
ND01. Neonatal Sepsis (0-7days)											
ND02. Neonatal Sepsis (8-28days)											
ND03. Neonatal Pneumonia (0-7days)											
ND04. Neonatal Pneumonia(8-28days)											
ND05. Neonatal Meningitis											
ND06. Neonatal Jaundice											
ND07. Other Neonatal Conditions											
1.3.4 Non Communicable Diseases/Conditions											
NC01. Sick Cell Anaemia	New										
	Known										
NC02. Other Haemoglobinopathies											
NC03. Gastro-Intestinal Disorders (non-Infective)											
NC04. Pain Requiring Palliative Care											
NC05. Haemophilia											
NC06. Deep Vein Thrombosis (DVT)											
1.3.5 Oral diseases											
OD01. Dental Caries											
OD02. Gingivitis											
OD03. HIV-Oral lesions											
OD04. Oral Cancers											
OD05. Other Oral Conditions											
1.3.6 ENT Conditions											
EN01. Otitis media acute and chronic											
EN02. Mastoiditis											
EN03. Hearing loss											
EN04. Rhinitis											
EN05. Sinusitis											
EN06. Epistaxis											
EN07. Adenoid Hypertrophy											
EN08. Foreign Body in nose ear and aero- digestive system											
EN09. Infected pre -auricular sinuses and abscess											
EN10. Otitis external											

ENT Conditions(Continued)		0-28 days		29 days - 4 yrs		5 – 9 yrs		10 – 19 yrs		20 yrs & above	
		Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
EN11. Mastoid abscess											
EN12. Vertigo											
EN13. Tonsillitis											
EN14. Tonsillar hypertrophy											
EN15. Tinnitus											
EN16. Head and neck cancers											
EN17. Other ENT conditions											
1.3.7 Eye conditions											
EC01. Allergic conjunctivitis											
EC02. Bacterial Conjunctivitis											
EC03. Ophthalmia neonatorum											
EC04. Corneal Ulcers/ Keratitis											
EC05. Un Operable Cataract (>6/60)											
EC06. Operable Cataract (< 6/60)											
EC07. Refractive errors											
EC08. Glaucoma											
EC09. Trachoma											
EC10. Vitamin A Deficiency											
EC12. Diabetic Retinopathy (All stages)											
EC13. Chorioretinal, Macular & Vitreous Disorders											
EC16. Corneal scars (Non trachomatous)											
EC17. Tumours											
EC24. Blindness											
EC25. Other eye conditions											
1.3.8 Mental Health											
MH05. Brief Psychotic Disorder											
MH07. Schizophrenia											
MH08. Bipolar Affective Disorder											
MH09. Major Depressive Disorder											
MH10. Anxiety - Phobic Disorders											
MH11. Anxiety -Social anxiety Disorders											
MH12. Anxiety - Panic Disorder											
MH13. Anxiety - Generalized anxiety Disorder											
MH26. Alcohol Use Disorders											
MH33.Epilepsy	New										
	Known										
MH45. Other Childhood Mental Disorders											
MH46. Other Adult Mental Disorders											
1.3.9 Neurological Disorders											
NE03. Parkinson's disease											
NE04. Dementia											
NE07. Persons in Coma / Emergency Care											
NE08. Down Syndrome (DS)											
NE09. CP/PMLD											
NE11. Learning Disability											
NE12. Eating disorders (anorexia, Bulimia, other feeding)											
NE15. Others											

Diagnosis		0-28 days		29 days - 4 yrs		5 – 9 yrs		10 – 19 yrs		20 yrs & above	
		Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
1.3.10 Chronic respiratory diseases											
CR01. Asthma	New										
	Known										
CR02. Chronic Obstructive Pulmonary Disease (COPD)	New										
	Known										
CR03. Other Chronic Respiratory diseases											
1.3.11 Cancers											
CA01. Cervical Cancer											
CA02. Prostate Cancer											
CA03. Breast Cancer											
CA04. Lung Cancer											
CA05. Liver Cancer											
CA07. Colon Cancer											
CA08. Kaposi Sarcoma											
CA19. Other Cancers											
1.3.12. Palliative											
PC01. No. of patients that need palliative care	Cancer										
	HIV/AIDS										
	Sickle Cell Anemia (SCA)										
	Others										
PC02. No. of new patients that received palliative care during the month	Cancer										
	HIV/AIDS										
	Sickle Cell Anemia (SCA)										
	Others										
PC03. No. of patients that received palliative care during the month	Cancer										
	HIV/AIDS										
	Sickle Cell Anemia (SCA)										
	Others										
PC04. No. of patients that received palliative care with a documented WHO performance status during the month	Working (Adults)										
	Playing (Children)										
	Ambulant										
	Bedridden										
PC05. No. of patients that received palliative care and are on oral liquid morphine											
PC06. No. of patients on palliative care who died during the month											

Diagnosis		0-28 days		29 days - 4 yrs		5 – 9 yrs		10 – 19 yrs		20 yrs & above	
		Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
1.3.14 Disabilities											
DS01. Individuals with Difficulty in seeing											
DS02. Individuals with Albinism											
DS03. Individuals with Difficulty in hearing											
DS04. Individuals with Speech Difficulties											
DS05. Individuals with delayed age specific motor development											
DS06. Individuals with Dwarfism											
DS07. Individuals with Difficulty understanding											
DS08. Individuals with Difficulty in remembering											
DS09. Individuals with Difficulty in reading											

Disabilities (<i>Continued</i>)			0-28 days		29 days - 4 yrs		5 – 9 yrs		10 – 19 yrs		20 yrs & above	
			Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
DS10.Individuals with Difficulty in writing												
DS11.Individuals with Difficulty in self-care												
DS12.Individuals with Mentally impairment												
DS13. Individuals with Emotionally impairment												
1.3.15 Cardiovascular diseases												
CV01. Stroke/ CardiovascularAccident(CVA)												
CV02. Hypertension	New											
	Known											
CV03. Heart failure												
CV04. Ischemic Heart Diseases												
CV05. Rheumatic Heart Diseases												
CV06. Congenital Heart Diseases												
CV07. Other Cardiovascular Diseases												
1.3.16 Renal Diseases												
RD01. Acute Kidney Injury												
RD02. Acute glomerulonephritis												
RD03. Nephrotic syndrome												
RD08. Uncomplicated UTI												
RD09. Complicated UTI												
1.3.17 Liver Diseases												
LD01. Liver Cirrhosis												
LD02. Liver Abcess												
LD06. Hepatitis A												
LD07. Hepatitis B												
LD08. Hepatitis C												
LD09. Hepatitis D												
LD10. Hepatitis E												
1.3.18 Endocrine and Metabolic Disorders												
EM01. Diabetes mellitus	New	Type 1										
		Type 2										
		Other Forms										
	Known	Type 1										
		Type 2										
		Other Forms										
EM02. Thyroid Disease												
EM03. Other Endocrine and Metabolic Diseases												
1.3.19 Injuries												
IN01. Jaw injuries												
IN02. Injuries due to Gender based violence												
IN03. Injuries (Trauma due to other causes)												
IN04. Animal bites	IN04a. Domestic											
	IN04b. Wild											
IN05. Snake bites												
IN06. Insect bites												
1.3.20 Minor Operations in OPD												
MN01. Tooth extractions												
MN02. Dental Fillings												
MN03. Other Minor Operations												

Diagnosis		0-28 days		29 days - 4 yrs		5 – 9 yrs		10 – 19 yrs		20 yrs & above	
		Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
1.3.21 Neglected Tropical Diseases(NTDs)											
NT01. Leishmaniasis											
NT02. Lymphatic Filariasis (hydrocele)											
NT03. Lymphatic Filariasis (Lymphoedema)											
NT04. Urinary Schistosomiasis											
NT05. Intestinal Schistosomiasis											
NT06. Onchocerciasis											
1.3.22 Maternal conditions											
MC01. Abortions due to Gender-Based Violence (GBV)											
MC02. Abortions due to other causes											
MC03. Malaria in pregnancy											
MC04. High blood pressure in pregnancy											
MC05. Diabetes in Pregnancy											
MC06. Obstructed labour											
MC07. Puerperal sepsis											
MC08 Psychosis of Postpartum onset											
MC09. Post Traumatic Stress Disorder of Postpartum onset											
MC10. Haemorrhage related to pregnancy (APH)											
MC11. Haemorrhage related to pregnancy (PPH)											
MC12. Breast cancer	Total Screened										
	No. with breast cancer										
MC13. Cervical cancer	Total Screened										
	No. with cervical cancer										
1.3.23 Other OPD conditions											
OP01. All others											
1.3.24 Deaths in OPD											
DT01. Deaths in OPD											
1.3.25 Emergency Medical Services											
ES01. No. of emergency cases at the facility	a). Medical										
	b). Obstetrics/ gynaecology										
	c). Surgical										
	d). Road Traffic Injuries										
ES02. No. of Patients that received care at the scene of emergency											
ES03. No. of emergency cases that arrived at the facility by;	Ambulance										
	Police Vehicle										
	Private Transportation										
ES04. No. of patients accessing care within 1hr in an emergency unit											
ES05. No. of patients who developed complications within 24 hours of care											
ES06. No of patients with hypoxemia	ES06(a) Total										
	ES06(b) Administered with Oxygen										
ES07. No. of patients with external haemorrhages	ES07(a) Total										
	ES07(b) Controlled										
ES08. Road Traffic Injuries	ES08(a). Motor Vehicle										
	ES08(b). Motor Cycle										
	ES08(c). Bicycle										
	ES08(d). Pedestrian										
	ES08(e). Others										

Emergency Medical Services <i>Continued</i>)		0-28 days		29 days - 4 yrs		5 – 9 yrs		10 – 19 yrs		20 yrs & above	
		Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
ES09. No. of deaths at the emergency unit	ES09(a). Medical										
	ES09(b). Obstetrics /gynaecology										
	ES09(c). Surgical										
	ES09(d). Road traffic injuries										
ES10. No. of Patients who received vaccination for	ES10a. Tetanus										
	ES10b. Rabies										
	ES10c. Anti venom										

1.3.26 TB Screening

TP01. OPD	TP01a. No. screened for TB										
	TP01b. No. of presumptive TB cases identified										
	TP01c. No. of presumptive diagnosed with TB										
TP02. ART	TP02a. No. screened for TB										
	TP02b. No. of presumptive TB cases identified										
	TP02c. No. of presumptive diagnosed with TB										
TP03. Out Reaches	TP03a. No. screened for TB										
	TP03b. No. of presumptive TB cases identified										
	TP03c. No. of presumptive diagnosed with TB										

1.3.27 Leprosy services

TP04. New and relapse leprosy cases registered	Screened										
	Presumed										
	Diagnosed										

1.3.26 Nutrition Services

Diagnosis				0-5 Months		6-23 Months		24-59 Months		5-9 Years		10-19 Years		20-24 Years		25+ Years	
				M	F	M	F	M	F	M	F	M	F	M	F	M	F
NA01. No. of clients who received nutrition assessment and categorized	NA01a.Total assessed for nutrition status																
	NA01b Identified malnourished	SAM	With Oedema														
			Without Oedema														
		MAM															
		Underweight															
		Overweight / Obese															
NA02. No. of SAM clients in OTC	No of active clients from previous months																
	New Admissions																
	Re-Admissions(Relapse)																
	Re-Admissions (Defaulters)																
	Transfer in OTC																
NA03. No. of clients with SAM admitted into OTC	Discharged as cured																
	Non - response																
	Defaulted from care																
	Died during treatment																
	Transferred out of OTC																
NA04. Total number of days spent at OTC for all clients discharged as cured																	
NA05. No. of MAM Clients in SFC this month;	No of active clients from previous months																
	New Admissions																
	Re-Admissions(Relapse)																
	Re-Admissions (Defaulters)																
	Transfer in SFC																

1.3.26 Nutrition Services																
Diagnosis		0-5 Months		6-23 Months		24-59 Months		5-9 Years		10-19 Years		20-24 Years		25+ Years		
		M	F	M	F	M	F	M	F	M	F	M	F	M	F

	Physical/Emotional Violence																					
GBV02. No.SGBV survivors eligible for PEP																						
GBV03. No.SGBV survivors initiated on PEP																						
GBV04. No. SGBV survivors who completed the PEP dose																						
GBV05. No. SGBV survivors who initiated PEP with edocumented out come	Negative																					
	Positive																					
	Lost To Followup																					

2.0 MATERNAL AND CHILD HEALTH SERVICES

2.1 ANTENATAL								
			Below 15 Years	15 - 19 Years	20 – 24 Years	25 - 49 Years	50+ Years	Total
AN01. ANC 1st contacts/ visits for women	Total							
	No. in 1st Trimester							
AN02. ANC 4th contacts/ visits for women								
AN03. ANC 8 contacts/ visits for Women								
AN04. Total ANC contacts/visits								
AN05. Referrals from community								
AN 06. No. of pregnant women who received IPT	First dose IPT (IPT1)							
	Second dose IPT (IPT2)							
	Third dose IPT (IPT3)							
	IPT 4 & 4+ Dose							
AN07 No. of pregnant women who were tested for blood grouping	Blood Group (O)	Rhesus O+						
		Rhesus O-						
	Blood Group (A)	Rhesus A+						
		Rhesus A-						
	Blood Group (B)	Rhesus B+						
		Rhesus B-						
	Blood Group (AB)	Rhesus AB+						
		Rhesus AB-						
AN08.No. of pregnant women who were tested for Anaemia using Hb Test at ANC 1st Contact / visit								
AN09. No. of pregnant women with Anaemia (Hb <10g/dl) at ANC 1st Contact / visit								

ANTENATAL(Continued)		Below 15 Years	15 - 19 Years	20 – 24 Years	25 - 49 Years	50+ Years	Total
AN10. No. of pregnant women receiving atleast 30 Tablets of	Folic Acid 0-12 wks of gestation						
	Iron & Folic Acid 13+ wks of gestation						
AN11. Pregnant Women receiving LLINs at ANC 1st visit							
AN12. No. of pregnant women who received obstetric-ultra sound scan during any ANC visit in the reporting month	Total U/S Scan done						
	No. done before 24 weeks of gestation						

Category	Number	Category	Number
AN13. No. of pregnant women dewormed		AN15. Male partner tested for syphilis	Total Tested
AN14. Pregnant Women tested for syphilis	First time this pregnancy		Tested Positive
	Newly tested Positive	AN16. No. Pregnant women tested for Hepatitis B.	Total Tested
	Started on syphilis treatment		Tested Positive

		Below 15 Years	15 - 19 Years	20 – 24 Years	25 - 49 Years	50+ Years	Total
AN17. Pregnant women newly tested for HIV in this pregnancy at any ANC visit (NEG & POS)	Total						
	ANC 1						
AN18. Pregnant Women tested HIV POS for 1st time this pregnancy at any ANC Visit	Total						
	ANC 1						
AN19. HIV+ Pregnant women assessed by CD4							
AN20. HIV+ pregnant women initiated on ART for eMTCT at any visit irrespective of when tested HIV POS and HIV POS not yet started ART							
AN21. Pregnant Women who knew status before 1st ANC	NEG						
	POS						
AN22. Pregnant women who re-tested later in pregnancy	NEG						
	POS						

ANTENATAL(Continued)			Number				Number		
AN23.HIV+ pregnant women	Eligible for a Viral Load during the month			AN26. HIV+ Male partners initiated on ART in the ANC setting		Known ART			
	Viral Load Samples collected during the month		New						
	Viral Load Suppressed during the month			AN27. No. of discordant couple identified in ANC					
AN24. Pregnant women given self-testing kits for their male partners		Total		AN28. Women assessed for nutrition status		Total			
		Tests returned NEG				Identified malnourished		MAM	
		Tests returned POS						SAM	
AN25: Male partners received HIV test results in eMTCT		NEG							
		POS							

		Below 15 Years	15 - 19 Years	20 – 24 Years	25 - 49 Years	50+ Years	Total
AN29. TB Screening for ANC Clients	Screened for TB						
	Presumed to have TB						
	Diagnosed with TB						
AN30. HIV+ pregnant women given ARV prophylaxis for the un born infants for the 1st time in ANC							
AN31. Male partners with a known status at their first visit as a couple in ANC	NEG						
	POS						

2.2 MATERNITY				2.2 MATERNITY	
			Total		
MA01. Admissions				MA06. Mothers admitted with pre-term labour	
MA02. Referrals to maternity unit	Total			Total	
	From community			Given Corticosteroids	
MA03. Referrals from maternity				MA07. Pre-terms births in the unit	
MA04. Total deliveries in the unit			Below 15 Years	Total	
			15-19 Years	Alive	
			20-24 Years	MA08. No. of pre-term low birth weight babies (<2.5 Kg) initiated on kangaroo (KMC)	
			25-49 Years	MA09. Live babies at discharge	
50+ Years				MA10. No. of Babies received LLINs	
MA05. Births in the unit	MA05a. Live births	Total		MA11. Total No. of Babies born with defects	Clubfoot
		<2.5kgs			Other defects
	MA05b. Fresh still birth	Total		MA12. Newborn deaths	0-7 days
		<2.5kgs			8-28 days
	MA05c. . Macerated still birth	Total		MA13. Maternal deaths	Below 15 Years
<2.5kgs			15-19 Years		
			20-24 Years		
			25-49 Years		
			50+ Years		

2.2 MATERNITY (Continued)			2.2 MATERNITY		POSTNATAL (Continued)		Total	
MA14. No. of mothers who initiated breastfeeding within the 1st hour after delivery	Total		MA23. No. of babies with Birth asphyxia	Total	PN05. Breastfeeding mothers re-tested for HIV during Postnatal	NEG		
	HIV POS		MA24. No. of Live babies Successfully Resuscitated			POS		
MA15. Women tested for HIV in labour 1st time this Pregnancy	NEG		MA25. No. received PNC check at 6 hours after birth	Baby	PN06. HIV+ women initiating ART in Postnatal			
	POS			Mother	PN07. HIV+ breast feeding mothers newly enrolled in MCH groups			
MA16. Women re-tested for HIV in labour	NEG		MA26. No. received PNC within 24 hours after birth	Baby	PN08: Mother-baby pairs enrolled at Mother-Baby care point			
	POS			Mother	PN09. Male partners received HIV test results in the postnatal setting	NEG		
MA17. HIV+ women initiating ART in maternity						POS		
MA18. Male partners received HIV test results in the maternity setting	NEG		MA27. No. of women who received Uterotonics in management of 3rd stage of labour	Oxytocin	PN10. HIV+ male partners initiated on ART in the postnatal setting			
	POS			Misoprostol	PN11. Breast feeding mothers given self-testing kits for their male partners	Total		
MA19. HIV+ male partners initiated on ART in the maternity setting				Heat stable Carbocin		Tests returned HIV POS		
MA20. No. of discordant couples identified in maternity				Ergometrine		Tests returned HIV NEG		
MA21. Deliveries to HIV+ women in unit	Total		MA28. No. of women who received Uterotonics as treatment of post partum haemorrhage (PPH)	Oxytocin	PN12. No. of discordant couples identified in PNC			
	Live births			Misoprostol				
MA22. HIV Exposed infants given ARVs	Total number			Tranexamic				
	No. of high-risk infants			Ergometrine				
2.3 POSTNATAL								
			Below 15 Years	15-19 Years	20-24 Years	25-49 Years	50+ Years	Total
PN01. Post Natal Attendances	Timing	6 Days						
		6 Weeks						
		6 Months						
PN02. Community referrals to PNC								
PN 03 TB Screening for PNC Clients	Screened for TB							
	Presumed to have TB							
	Diagnosed with TB							
PN04. Breast feeding mothers tested for HIV 1st time during Postnatal			NEG					
			POS					
2.4 FAMILY PLANNING METHODS								
2.4.1 Family Planning Client Visits				Below 15 Yrs	15-19 Yrs	20-24 Yrs	25-49 Yrs	50+ Yrs
FP01. Combined Oral Contraceptives Pills (COCs)	New users							
	Revisits							
FP02. Progesterone Only Pills (POP)	New users							
	Revisits							
FP03. Emergency Contraceptive Pills (ECP)	New users							
	Revisits							
PN13. Cancer of the breast			Clients screened for Cancer of the Breast					
			Clients with pre-malignant conditions of breast					
PN14. Cancer of the Cervix			Clients screened for Cancer of the Cervix					
			Clients with pre-malignant conditions of cervix					
PN15. Lactating mothers who received Nutritional assessment			Total Assessed					
			MAM					
			SAM					
PN16. Post-natal mothers who received Counselling			Maternal Nutrition		Total			
					HIV +			
			Infant Feeding		Total			
					HIV +			

2.4 FAMILY PLANNING METHODS (Continued)						
2.4.1 Family Planning Client Visits		Below 15 Yrs	15-19 Yrs	20-24 Yrs	25-49 Yrs	50+ Yrs
FP04. Injectable DMPA Intramuscular (3 months)	New users					
	Revisits					
FP05. Injectable DMPA Subcutaneous (3 months)	Provider Administered (PA)	New users				
		Revisits				
	Self-Injected (SI)	New users				
		Revisits				
FP06. 3-year Implant	New users					
	Revisits					
FP07. 5-year Implant	New users					
	Revisits					
FP08. IUD Copper-T	New users					
	Revisits					
FP09. IUD Hormonal	New users					
	Revisits					
FP10. FAM-SDM(Cycle Beads)	New users					
	Revisits					
FP11. FAM-LAM	New users					
	Revisits					
FP12. FAM Two Days Method	New users					
	Revisits					
FP13. Female condoms	New users					
	Revisits					
FP14. Male condoms	New users					
	Revisits					

2.4.2 CONTRACEPTIVES DISPENSED	No. Disp. at Unit	No. Disp. in Outreach	No. Disp. by VHTs	No. Disp. by Pharmacies/ Drug Shops
CT01. Combined Oral Contraceptive Pills (Cycles)				
CT02. Progesterone only Oral pills (Cycles)				

2.4.2 CONTRACEPTIVES DISPENSED	No. Disp. at Unit	No. Disp. in Outreach	No. Disp. by VHTs	No. Disp. by Pharmacies/ Drug Shops
CT03. Emergency Contraceptive Pills (Cycles)				
CT04. Injectable DMPA_Intramuscular (Doses)				
CT05. Injectable DMPA Subcutaneous (Doses)	Provider Administered (PA)			
	Self-Injected (SI)			
CT06. 3 year Implant				
CT07. 5 year Implant				
CT08. IUD-Copper-T				
CT09. IUD-Hormonal				
CT10. FAM-SDM (Cycle Bead Pieces)				
CT11. Female condoms (Pieces)				
CT12. Male condoms (Pieces)				

2.4.3 MINOR OPERATIONS IN FAMILY PLANNING			
Permanent Methods			
		25-49 Yrs	50+ Yrs
PM01. Female sterilization (tubal ligation)			
PM02. Male sterilization (vasectomy)			

2.4.4 POSTPARTUM FAMILY PLANNING						
	TIMING					
PPFP01. No. of Mothers who received Family Planning in Postpartum period	Within 48 hours	3 days to 3 weeks	4 wks to 6 weeks	7 weeks to 5 months	6 to 12 months	
Below 15 Years						
15-19 Years						
20-24 Years						
25-49 Years						

2.4.5 POST ABORTION FAMILY PLANNING				
PAFP01. No. of women who received Post Abortion Family Planning	Within 48 hours	3 days to 1 week	8 days to 2 weeks	
Below 15 Years				
15-19 Years				
20-24 Years				
25-49 Years				

2.4.6 REMOVAL OF LONG-ACTING REVERSIBLE CONTRACEPTIVE (LARC)								
Method	Reason for Removal	Removal Timing						
		Below 3 months (1)	3 months to 5 months (2)	6 months to 12 months (3)	13 months to 18 months (4)	19 months to 35 months (5)	At 36 months (6)	Above 36 months (7)
LR01. LARCs Removal due to	1. On-schedule							
	2. Side Effects							
	3. Change in Fertility Intention							
	4. GBV							
	5. Others							

2.4.7 INTEGRATED SERVICES IN FAMILY PLANNING		
		Number
FH01. Cervical Cancer Screening	Total screened for cancer of the cervix	
	No. with pre-malignant cancer of the cervix	
FH02. No. screened for STIs	Total screened	
	Positive	
FH03. No. of HIV+ FP Users		

2.5 EXPOSED INFANT DIAGNOSIS (EID) SERVICES		Number
ED01. Exposed Infants Tested for HIV below 18 months of age by 1st PCR within the month	Total	
	Within 2 months	
	Tested HIV+	
	Tested HIV+ within 2 months	
ED02. Exposed Infants Tested for HIV by 2nd PCR Within one month	Total	
	Tested HIV+	
ED03. Exposed Infants Tested for HIV by 3rd PCR within the month	Total	
	Tested HIV+	
ED04. Exposed Infants Tested for HIV by a Rapid Test during the month	Total	
	Tested HIV+	
ED05. 1st DNA/PCR results returned during the month	Total	
	Results returned within 2 weeks	
	Results given to the care giver	

2.5 EXPOSED INFANT DIAGNOSIS (EID) SERVICES (Continued)		Number
ED06. 2nd DNA/PCR results returned during the month	Total	
	Results returned within 2 weeks	
	Results given to caregiver	
ED07. DNA/PCR 6 weeks after cessation of breastfeeding results returned during the month	Total	
	Results returned within 2 weeks	
	Results given to caregiver	
ED08. HIV exposed infants given ARV prophylaxis for the first time at mother baby care point during the month		
ED09. No. of HIV+ infants from EID enrolled on ART during the month	Total	
	Within 2 Months	
ED10. HIV exposed started on CPT during the month	Total	
	Within 2 Months	
2.5.1 OUTCOMES OF HIV EXPOSED INFANTS REGISTERED 24 MONTHS AGO		
OE01. Total No. of HEIs registered in the birth cohort		
OE02. Total No. of HEIs registered in the birth cohort that transferred into the Health facility		
OE03. HEIs that initiated ARV prophylaxis for eMTCT between 0-6 weeks in the cohort		
OE04. HEIs that received ARV prophylaxis for 12 weeks (High risk infants) in the cohort		
OE05. HEIs that received CTX prophylaxis at the age within 2 months in the cohort		
OE06. HEIs that had a 1st DNA/PCR done within 2 months		
OE07. HEIs that had a 2nd DNA/PCR at 9 months of age		
OE08. HEIs that had DNA/PCR done at 6 weeks after cessation of breastfeeding		
OE09. No. of HIV exposed infants exclusively breastfed for the first 6 completed months during the reporting period		
OE10. No. of HIV exposed infants who were reported to be breastfed up-to 1 year		
2.5.2 FINAL TEST RESULTS HEI OUTCOMES AT 24 MONTHS.		
OE11. No. of HIV exposed infants tested HIV positive on any DNA/PCR or rapid test	Total	
	Initiated on ART	
OE12. No. of HIV exposed infants who died before 18 months of age		
OE13. No. of HIV exposed infants transferred out before 18 months of age		
OE14. No. of HIV exposed infants were lost to follow up before 18 months of age		
OE15. No. of HIV exposed infants who were discharged HIV negative on final rapid test		
OE16. No. of HEIs whose final HIV status is unknown (include in care but no test done)		

2.5.3 EARLY RETENTION MONITORING FOR EMTCT WOMEN			
	1 month	2 month	3 month
ER01. EMTCT mothers Enrolled on ART treatment (Original Cohort)			
ER02. EMTCT mothers Transferred in during the Month (TI)			
ER03. EMTCT mothers Transferred out (TO)			
ER04. EMTCT mothers active on ART			

2.6 CHILD HEALTH SERVICES

		0-5 Months		6 -11 Months		12-59 Months		5 - 14 Years	
		M	F	M	F	M	F	M	F
NA01a. Total assessed									
NA01b identified malnourished	SAM With Oedema								
	Without Oedema								
	MAM								
	Underweight								
	Overweight / Obese								
CH01. Vit A supplement (1st dose)	Static								
	Outreach								
	In school								
CH02. Vit A supplement (2nd dose)	Static								
	Outreach								
	In school								
CH03. Dewormed (1st dose)	Static								
	Outreach								
	In school								
CH04. Dewormed (2nd dose)	Static								
	Outreach								
	In school								

2.6.1 HPV VACCINATION

Administration of HPV Vaccine		Facility (F)	School (S)	Community (C)
VP01. HPV-Dose	10 years			
	11 years and above			

2.6.2 TETANUS VACCINATION (Td VACCINE)

Doses	Pregnant women		Non-pregnant women		
	Static	Outreach	Static	Outreach	Immunization in School
TD01. Td1-Dose 1					
TD02. Td2-Dose 2					
TD03. Td3-Dose 3					
TD04. Td4-Dose 4					
TD05. Td5-Dose 5					

Doses	Under 1		1-4 Years		5 – 14 Years	
	Static	Outreach	Static	Outreach	Static	Outreach
2.6.3 CHILD IMMUNISATION						
CL01. BCG						
CL02. Hep B zero dose						
CL03. Protection At Birth for Td (PAB)						
CL04. Polio 0						
CL05. Polio 1						
CL06. Polio 2						
CL07. Polio 3						
CL08. IPV1						
CL09. IPV2						
CL10. DPT-Hep B+Hib 1						
CL11. DPT-Hep B+Hib 2						
CL12. DPT-Hep B+Hib 3						
CL13. PCV 1						
CL14. PCV 2						
CL15. PCV 3						
CL16. Rotavirus 1 Vaccine						
CL17. Rotavirus 2 Vaccine						
CL18. Rotavirus 3 Vaccine						
CL19. Malaria 1						
CL20. Malaria 2						
CL21. Malaria 3						
CL22. Yellow Fever						
CL23. Measles (MR1)						
CL24. Fully immunized by 1 year						
CL25. No. received LLINs						
SECOND YEAR OF LIFE						
CL26. Malaria 4						
CL27. Measles (MR2)						
CL28. Fully immunized by 2 years						

2.6.4 VACCINE AVAILABILITY AND WASTAGE					
Antigen	Opening Balance (A)	Received (B)	Closing Balance (C)	Doses wasted	
				Doses in Closed Vials (CV)	Doses in Open Vials (OV)
WT01. BCG					
WT02. Hep B zero dose					
WT03. Polio (OPV)					
WT04. IPV					
WT05. DPT+Hep B+Hib					
WT06. PCV					
WT07. Rotavirus					
WT08. Measles					
WT09. Yellow Fever					
WT10. Td					
WT11. HPV					
WT12. Malaria					

2.7 EPI/EID/PMTCT Integration		Number
PI01. No. of Infants screened for HIV-exposure at DPT1, 2, 3 and Measles immunization		
PI02. No. of HIV-exposed infants identified at immunization during the month		
PI03. No. of HIV-exposed infants identified eligible for an HIV test		
PI04. No. of HIV-exposed infants tested for HIV during immunization		
PI05. No. of breastfeeding women tested for HIV for the first time at immunization	NEG	
	POS	
PI06. No. of breastfeeding women with a known HIV status at immunization	NEG	
	POS	
PI07. No. of breastfeeding women re-tested for HIV at immunization	NEG	
	POS	
PI08. No. of HIV+ breastfeeding women on ART		

3.0 HEPATITIS		<10yrs		10-19yrs		20-59yrs		60+ years	
		M	F	M	F	M	F	M	F
HB01. No. of clients tested for Hep B									
HB02. No. tested negative for Hep B									
HB03. No. tested negative for Hep B and Vaccinated	1st Dose (New)								
	2nd Dose (Revisit)								
	3rd Dose (Revisit)								
HB04. No. tested positive for Hep B									
HB05. No. tested positive for Hep B and enrolled for treatment									
HB06. No. tested positive for Hep B and not enrolled into care and treatment									
HB07. No. of persons assessed for Hep B treatment effectiveness (viral load suppression)									
HB08. No. of persons with Hep B treatment (viral load suppression)									
HB09. No. of pregnant women tested for Hep B (Subset of row 1)									
HB10. No. of pregnant women tested positive for Hep B (Subset of row 4)									
HB11. No. of pregnant women tested positive for Hep B and initiated on HepB treatment (Subset of row 5)									
HB12. No. tested for Hep C									
HB13. No. tested positive for Hep C (Anti-HCV)									
HB14. No. confirmed positive for Hep C (HCV RNA)									
HB15. No. tested positive for HCV RNA and enrolled for treatment									
HB16. No. of persons assessed for Hep C Sustained Viral response									

4.0 HIV/AIDS TESTING SERVICES (HTS)

Data Source	Data Element	Category	Number of individuals 0-4Yrs		Number of individuals 5 – 9Yrs		Number of individuals 10-14-Yrs		Number of individuals 15 –19Yrs		Number of individuals 20 -24Yrs		Number of individuals 25 - 29Yrs		Number of individuals 30 - 39Yrs		Number of individuals 40 - 49Yrs		Number of individuals 50+Yrs

10.3 SUMMARY OF HIV TESTS BY PURPOSE											
Category	HCT	eMTCT	Clinical Diagnosis	SMC	Test for Verification	Recency Testing	IQC	Total	Inconclusive Results	Repeat Testers	DNA Confirmed Tests
HP01. Determine											
HP02. Statpak											
HP03. SD Bioline											
HP04. HIV Syphilis DUO											
HP05. Oraquick (Self Testing)											
HP06. HIV Recency Testing											

10.4 REFERRAL TESTING 10.4.1 Volume of Sample Referred

Type of Test	No. of Specimen Referred	No. of Pending Results/ Feedback	Type of Test	No. of Specimen Referred	No. of Pending Results/ Feedback
Virology			VS17. Yellow fever		
VS01. HIV EID			VS18. Rabies		
VS02. Viral Load for HIV			Microbiology		
VS03. CD4			VS19. Typhoid Fever		
VS04. Sickle Cell Disease Confirmation			VS20. Cholera		
VS05. Histology			VS21. Dysentery		
VS06. Polio/or Acute Flaccid Paralysis			VS22. Rota Virus		
VS07. Severe Acute Respiratory Syndrome/ Infection (SARS/SARI)			VS23. Meningitis		
VS08. TB GeneXpert			VS24. Neonatal tetanus		
VS09. DST for Multi Drug Resistance TB (MDR TB)			VS25. Plague		
VS10. Hepatitis B Viral load,			VS26. Isolates		
VS11. Hepatitis C Viral load,			VS27. Viral Haemorrhagic Fevers(VHF)		
VS12. Hep BcAg,			VS28. Animal Bites (suspected rabies)		
VS13. HIV MDR,			Parasitology		
VS14. VHF's (EBOLA, MARBUG),			VS29. Hemo parasites		
VS15. Cytology,			VS30. Intestinal parasites		
VS16. Measles / Rubella,			VS31. Tissue parasites		
			Totals		

10.5 Number of Routine Tests that could not be conducted at facility and were referred to hub or other facility

Routine Test Type (specify type test)	Reasons for Referrals and Reasons for not conducting tests that are on test menu								
	Equipment break down	Reagent stock out	Supplies stock out	Power out-age	No testing expertise	Lack of required equipment	Confirma-tory testing	For QA re-testing	Others
RT01. Chemistry									
RT02. Microbiology									
RT03. HIV screening									
RT04. Haematology									
RT05. Parasitology									
RT06. Immunology									
RT07. Serology									

10.6. LABORATORY SPECIMEN REJECTION

Reasons for Specimen Rejection	Sample Type							
	Blood	Stool/ Rectal Swab	Urine	Sputum	Pus Swab	Genital Swab	Skin snip	Others
RS01. Inadequate specimen volume								
RS02. Hemolyzed specimen								
RS03. Specimen without lab request form								
RS04. No test specified on lab request form accompanying specimen								
RS05. Specimen without label or identifier								
RS06. Wrong specimen label								
RS07. Unclear specimen label								
RS08. Wrong specimen container								
RS09. Damaged specimen container								
RS10. Too old specimen								
RS11. Date of specimen collection not specified								
RS12. Time of specimen collection not specified								

Reasons for Specimen Rejection	Sample Type							
	Blood	Stool/ Rectal Swab	Urine	Sputum	Pus Swab	Genital Swab	Skin snip	Others
RS13. Specimen type unacceptable for required test								
RS14. Other reasons								
Totals
